

Dear Coach colleagues and ICF members

Coaching has deeply impacted my life and has allowed me to find my purpose, and to fully support others so they can step into their brilliance. My passion and motivation to support people in their personal journey, extends to supporting coaches on their path. I see being part of the ICF Board as a great way to assist new and existing coaches while extending my enthusiasm and commitment to my purpose.

ICF already has a fantastic wealth of resources and coverage in Switzerland and I want my experience to support these existing goals. In addition I see two areas I would like to initially support and grow as a member of the ICF board:

- New coaches on their journey. After qualification it can be lonely and hard to know what to do in the next steps of setting up your own business, getting clients, joining coaching groups. I would like to have more resources in ICF aimed at supporting this group.
- While there are some big hubs of support in CH, where they put on great events, there are some cities not supported and I would like these great events to reach a broader audience in CH. I believe a virtual platform where more events could be hosted and replayed would support more members of ICF Switzerland.

To ICF I bring 25 years of global corporate experience in Finance, Change and Project Management. Having pivoted my career from Finance to Coaching I was able to coach and facilitate training internally for the company I worked before stepping out on my own and setting up my company. I have lived in UK, South Africa and spent the last 14 years in Switzerland, where I live with my daughter. I have a passion for the outdoors and nature in particular I love Ultra Running in the mountains.

Thank you for the consideration. I look forward to working with you in the future.

Warm regards

Debbie Brupbacher
